**Subject:** RE: Gold King ER - SADIE access

Here are the folks that need access to this in R9. Apparently, they needed access yesterday due to Administer McCarthy's visit to Durango.

Gerry Hiatt, [hiatt.gerald@epa.gov](mailto:hiatt.gerald@epa.gov)

Ned Black, [black.ned@epa.gov](mailto:black.ned@epa.gov)

And myself.

Thanks!!

**Subject:** Gold King ER - SADIE access

Pete/Jon,

1. We are currently finalizing the software updates to connect SADIE with the Region 6 flavor of the Operational Viewer. This morning the ESAT contractor will be completing a new SADIE front page and we hope that R6 will complete today the javascript widget that will connect SADIE to the viewer. The ability to go from a sample point in the viewer to SADIE is already complete.

2. When the front page is complete this morning, I will provide you the URL and credentials

to access the various SCRFIBE projects through SADIE.

3. SADIE is on our cloud server and not within the EPA firewall. Everyone we provide access to will be able to get to SADIE.

4. I will provide training to whomever needs it remotely or in person. I will go to Durango should it be necessary.

5. Please provide a list of names, emails, and affiliation for those who you would like to have access to the SCRIBE data accessible through SADIE, and we will provide access as soon as it is available.
